# Transitions *and* TRANSFORMATIONS

**David M. Walker**  
Comptroller General of the United States

November 2002

# Transition

Webster's  
definition

Passage from one state, stage, or place  
to another: **CHANGE**

A movement, development or evolution  
from one form, stage, or style to another

# SERVING THE CONGRESS GAO'S STRATEGIC PLAN FRAMEWORK

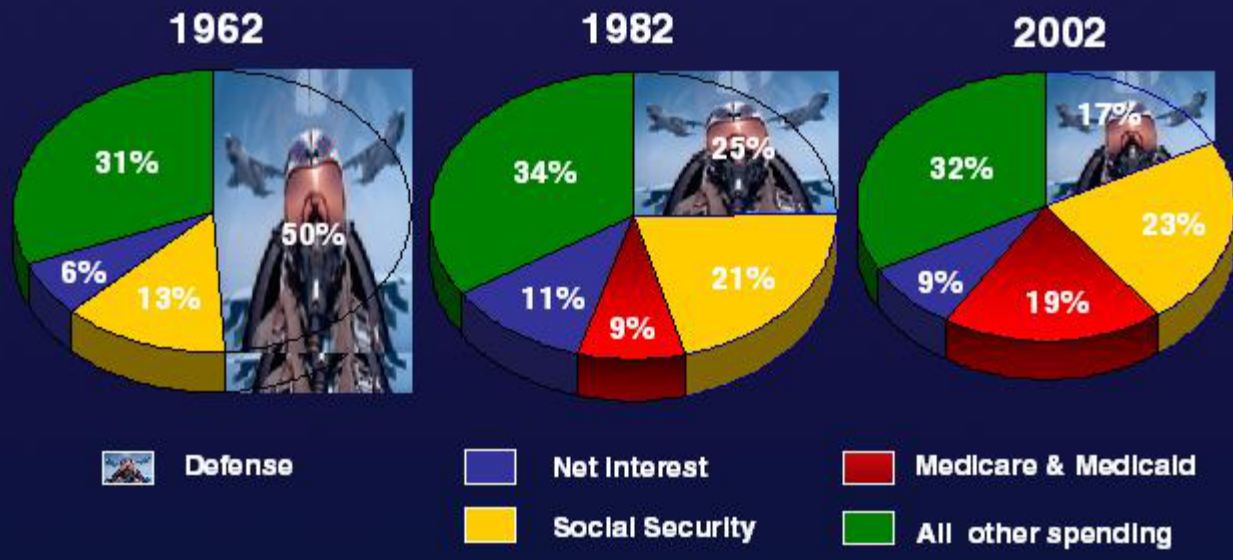

## MISSION

GAO exists to support the Congress in meeting its constitutional responsibilities and to help improve the performance and ensure the accountability of the federal government for the benefit of the American people.

# **Trans**FORMATION

Webster's  
definition

**An act, process, or instance of change  
in structure appearance, or character**

**A conversion, revolution, makeover,  
alteration, or renovation**

**Transformation is about creating the future rather than perfecting the past.**

## The Case for Change

- **Government is on a “burning platform,” and the status quo way of doing business is unacceptable for a variety of reasons, including:**
  - Rising public expectations for demonstrable results and enhanced responsiveness
  - Selected trends and challenges having no boundaries
  - Past fiscal trends and significant long-range challenges
  - Additional resource demands due to recent terrorism events in the United States
  - Government performance/accountability and high risk challenges, including the lack of effective human capital strategies

## Cultural Transformation: A New Model for Government Organizations

- Government organizations will need to become **less** hierarchical, process-oriented, stovepiped, and inwardly focused.
- They will need to become **more** partnerial, results-oriented, integrated, and externally focused.
- They will need to achieve a better balance between results, client/customer, and employee issues.
- They will need to work better with other governmental organizations, non-governmental organizations, and the private sector, both domestically and internationally, to achieve results.

## Keys to Making Change Happen

- Commitment and sustained leadership
- Demonstrated need for change
- Process (e.g., employee involvement)
- Identifiable and measurable progress over time
- Communication, communication, communication
  
- Several other actions needed:
  - Strategic Plan
  - Core values
  - Organizational alignment
  - Recruiting, development, and succession planning strategies
  - Performance measurement and reward systems

**In today's world, organizations who do not change may find themselves headed for extinction. At the same time, every organization should have a set of core values that can stand the test of time.**

## Key Enablers for Effective Performance Management

- People
- Process
- Technology
- Environment

The most important of the four is **PEOPLE** —  
an agency's human capital.

## Homeland Security: Transition and Transformation in Action

- **President Proposes the Creation of a Cabinet-level Department of Homeland Security – Congress Agrees with General Concept**
  - **Primary missions:**
    - Prevent terrorist attacks within the US
    - Reduce vulnerability to terrorism at home
    - Minimize damage and assist in recovery if attacked
  - **Primary responsibilities and possible divisions:**
    - Information analysis - Intelligence
    - Critical infrastructure protection
    - Chemical, biological, radiological and nuclear countermeasures
    - Science and Technology
    - Border and transportation security
    - Emergency preparedness and response
- **Timetable:**
  - House passed legislation on Wednesday, November 13, 2002.
  - Senate expected to pass legislation the week of November 18, 2002.

## Homeland Security: Implementation will be Pivotal to Success

- **GAO has identified several keys to successful implementation:**
  - Human capital strategy, including agency leadership
  - Strategic planning
  - Organizational alignment
  - Communication and partnerships
  - Performance and accountability management
  - Information management and technology
  - Knowledge management
  - Financial management
  - Acquisition management
  - Risk management
  - Change management

## Accounting Profession Transformation Challenges

- The collapse of Enron and other recent events have served to increase the visibility of and concerns relating to a range of issues, including:
  - The adequacy of the current accounting and reporting model
  - The independence and effectiveness of auditors
  - The appropriateness of current governance structures
  - The adequacy of existing pension rules
  - The roles of other key players (e.g., management, boards, analysts, attorneys, investment advisors)
- Definitive actions are needed by a range of parties to address legitimate concerns, better protect the public interest, and restore investor confidence (e.g., Congress, stock exchanges, management, boards, CPAs)
- Government has both the need and the opportunity to lead by example in some important areas

## Selected Government Accountability Issues Leading by Example

- **Definition of success in financial management**
  - Clean opinion on financial statements
  - No major control weaknesses
  - No major compliance issues
  - Systems that produce timely, accurate, and useful financial and management information
- **Scope of audit**
  - Internal controls (current)
  - Compliance matters (current)
  - Performance and projection information (future)
- **Additional issues**
  - FASAB restructuring
  - Accelerated financial reporting
  - Audit/financial management committees
  - Auditor independence

## New Independence Standards

- **Key Principles**
  - Auditors should not perform management functions or make management decisions
  - Auditors should not audit their own work or provide nonaudit services if such services are material to the subject matter of the audit
- **Safeguards**
  - Personnel
  - Audit scope
  - Documentation
  - Quality assurance
- **Additional Guidance**
  - Delayed effective date
  - Additional transition flexibility
  - Application of principles and safeguards

## Key Concepts in the Accountability Profession

- Public vs. personal interests
- Doing what is right
- Substance over form
- Principles vs. rules
- Judgment vs. checklists
- Floor vs. ceiling
- Economic reality
- Fact and appearance
