The Honorable Newt Gingrich  
Speaker of the House  
of Representatives

Dear Mr. Speaker:

This letter responds to the requirement of the Competition in Contracting Act of 1984 that the Comptroller General report to the Congress each instance in which a federal agency did not fully implement a recommendation made by our Office in connection with a bid protest decided the prior fiscal year. We are pleased to report no such occurrence during fiscal year 1996.

During the fiscal year we received 2,092 protests and 194 requests for reconsideration for a total of 2,286 cases. We closed 2,335 cases, including 2,161 protests and 174 requests for reconsideration. Enclosed for your information are some statistics concerning suspensions of contract awards and performance as a result of bid protests.

A copy of this report and the attached enclosure are being furnished to the House Committee on Government Reform and Oversight. An identical report is being furnished to the President of the Senate.

Sincerely yours,

*Robert P. Murphy*  
Comptroller General  
of the United States

**Suspension of Award/Performance Data**

---

**BACKGROUND**

CICA contains several provisions whose purpose is to enhance the likelihood that protests can be decided before contract performance reaches a stage at which corrective action is effectively precluded. Where an agency is notified of a protest before award, CICA precludes an award unless the head of the procuring activity makes certain findings justifying the award. In cases where notice is received within 10 days following the date of award or within 5 days after a requested and, when requested, required debriefing, CICA requires the suspension of performance unless the head of the procuring activity makes certain other findings justifying the continuance of performance despite the protest.

**DATA**

The following tables present data regarding the number of contracts awarded after a protest was filed (table A), the number of protests in table A in which GAO sustained the protest (table B), the number of contracts in which performance was not suspended following a protest (table C), and the number of cases sustained by GAO in which performance was not suspended (table D).
